YOUR COMPLIMENTARY HAND-CARE GUIDE

Super Soft Hands

Wherever Life Takes You

A simple, luxurious hand-care ritual for busy days, frequent washing, and everything in between.

THE 60-SECOND SOFT-HANDS RESET

01

Wash gently

Use lukewarm water and a mild hand cleanser. Pat dry, leaving your skin slightly damp.

02

Seal in softness

Massage a pea-sized amount of fragrance-free hand cream into palms, backs of hands, knuckles, and cuticles. Look for glycerin, ceramides, or petrolatum.

03

Protect before you go

Apply broad-spectrum SPF 30+ to the backs of your hands when heading outdoors. Reapply about every two hours while outside and after washing.

YOUR EVERYWHERE ESSENTIALS

Keep a travel-size hand cream in your bag, car console (away from heat), or desk. Reapply after washing and whenever hands feel dry.

Designed to Be Noticed.

SMALL MOMENTS. BEAUTIFULLY SOFT HANDS.

The On-the-Go *Ritual.*

Five moments to show your hands some love

01

MORNING

Cream first, then SPF 30+ on exposed hands.

02

AFTER EVERY WASH

Pat dry and replenish with hand cream.

03

BETWEEN ERRANDS

Smooth a little cream over dry knuckles and cuticles.

04

DURING CLEANING

Wear protective gloves for dishes and harsh cleaners.

05

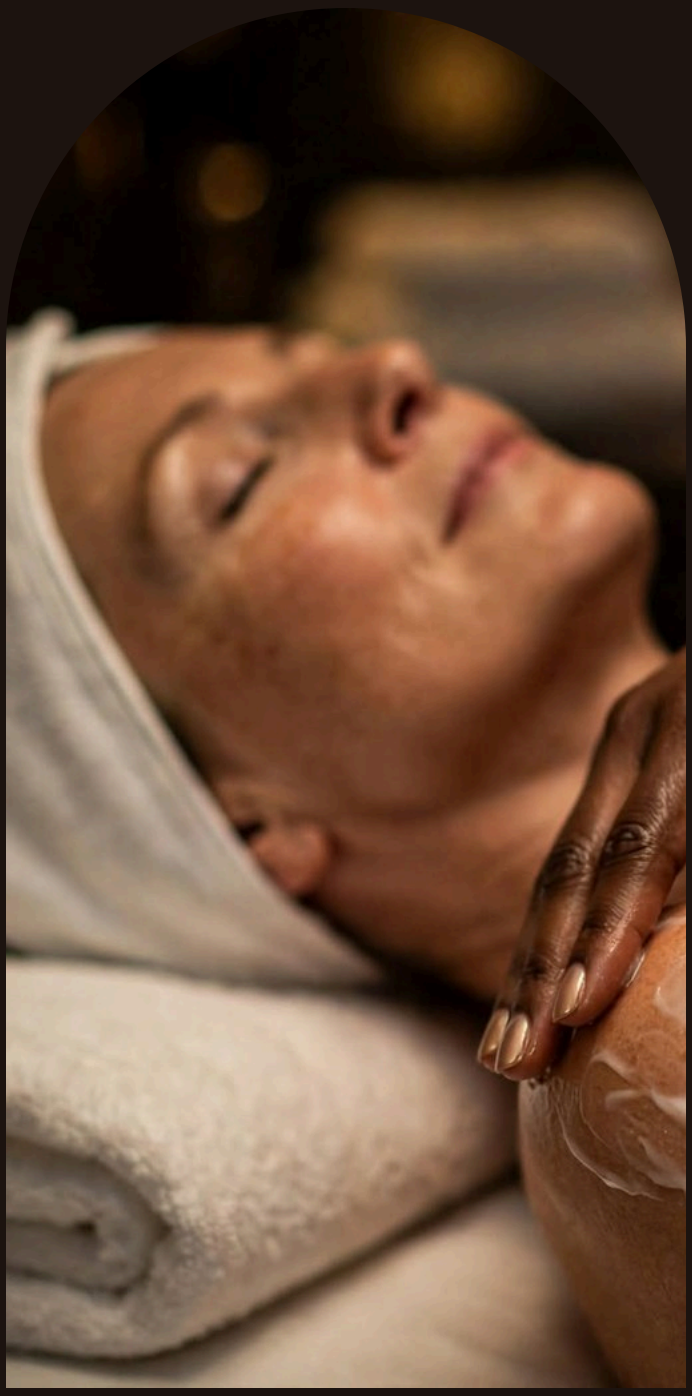

BEFORE BED

Use a richer, fragrance-free cream or ointment; cotton gloves are optional.

WHEN HANDS NEED MORE

A little *extra care.*

01

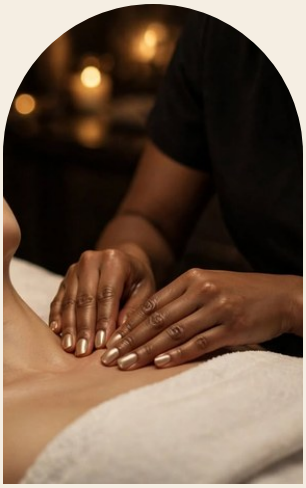

For very dry hands, apply a thick, fragrance-free ointment before sleep.

02

Skip harsh scrubs on cracked or irritated skin.

03

If dryness, painful cracks, or rash persist, consult a dermatologist.

YOUR NEXT MOMENT

Your hands do so much.
Give them a moment of care.
